Education

Portland State University <i>Ph.D. in Mathematical Sciences</i>	Portland, Oregon, USA 2024 (<i>Expected</i>)
Portland State University <i>M.S. in Mathematics</i>	Portland, Oregon, USA 2020
Portland State University <i>B.S. in Mathematics, Magna cum laude, Departmental honors</i>	Portland, Oregon, USA 2017

Research Interests

My primary research focus is numerical methods for partial differential equations. Specifically, I am working on a finite element method using nonstandard meshes incorporating cells with curved edges and holes, using ideas from virtual element methods and boundary element methods. I also have experience in numerical optimization and high performance computing.

Education

Portland State University <i>Ph.D. in Mathematical Sciences</i>	Portland, Oregon, USA 2024 (<i>Expected</i>)
Portland State University <i>M.S. in Mathematics</i>	Portland, Oregon, USA 2020
Portland State University <i>B.S. in Mathematics, Magna cum laude, Departmental honors</i>	Portland, Oregon, USA 2017

Computing Skills

Python, MATLAB, C, C++, Wolfram Mathematica, MS Excel, \LaTeX , git, Linux, MacOS, MS Windows

Awards and Honors

NSF Research Training Group Graduate Fellowship (2022–2024): National Science Foundation

Excellence in Remote Teaching Award (2020): Fariborz Maseeh Dept. of Math. & Stats., PSU

Level III (Master) Tutor Certification (2019): College Reading & Learning Association

F. S. Cater Prize (2019): Fariborz Maseeh Dept. of Math. & Stats., PSU

Christine and David Vernier STEM Scholarship (2016): PSU College of Liberal Arts and Sciences

Oregon NASA Space Scholarship (2015): Oregon Space Grant Consortium
